In the United States, a significant portion of the roughly 1.8 million registered nonprofit organizations are actively seeking to raise non-dues revenue, and 76% of small staff associations rank generating non-dues revenue as most important.

Nonprofits often struggle with financial stability if they rely heavily on a single revenue stream like membership dues. This has led many to prioritize diversifying their revenue streams.

**MAXIMIZE EARNINGS:** For every product category, you set a commission range between 0-99% (e.g. 7-99%). For every product for sale, marketplace sellers choose a commission rate within your set range (e.g. 10%). Highest commission products are sorted from top to bottom on the website to maximize your earnings.

When a customer purchases a product from a seller, payment is deposited in your PayPal or Stripe account. Next, a payout (less your commission) is automatically sent to the seller a day after their refund policy expiry date, which sellers choose per product (default is 14 days).

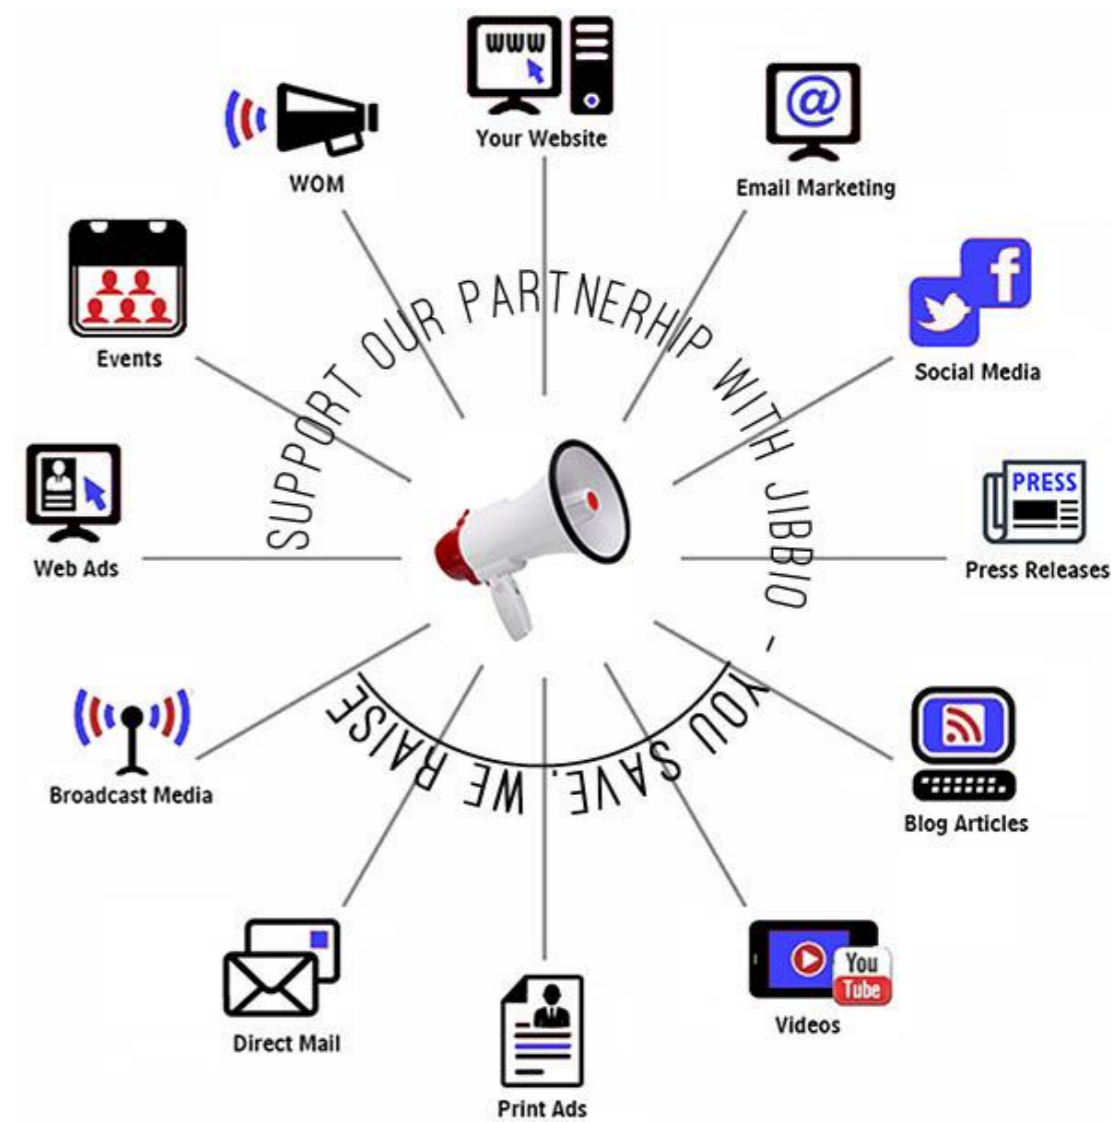

Edit the outreach templates below and send to donors, friends, family, social media, businesses, and community groups to get the word out.

December 31, 2021

Dear Mr. Park,

The Boys & Girls Club of Clinton County enrolled in the Jibbio 'PLUS' service on September 1, 2021.

We initially created two MAXeSites to streamline our youth basketball registration process and club membership applications. We were pleased to discover that MAXeSites included an *accessibility-compliant, built-in language translation and text-to-speech feature* as we serve many members in our community whereby English is not their first language.

Furthermore, this also allowed us to create other online applications to accommodate any language, enabling us to transition our print administration to digital. In turn, saving our staff at least 35 monthly hours in time.

We also downloaded the various predesigned marketing and advertising MAXeSite templates, edited according to our needs, which was conveniently easy.

One in particular was a 'raffle fundraiser' MAXeSite that our staff thought was a very convenient method for participants to access and interact with our current promotions.

After sharing the 'raffle fundraiser' MAXeSite link to Facebook, emails, and adding its built-in QR code to print flyers, we were able to generate 2.9 times more online revenue compared to Facebook Fundraisers for a 300% increase. Moreover, we immediately received funds raised via MAXeSites directly in our PayPal account, compared to waiting weeks to receive funds raised via Facebook Fundraisers.

MAXeSites are evidently simple, engaging, and versatile.

After just 90 days, Jibbio has been a tremendous asset for our organization and we look forward to exploring its capabilities to expand our online presence moving forward.

All the best,

A handwritten signature in blue ink that reads "Susie Michael".
